Per your request, I have identified the amount of e-rate funding received by Mississippi and the number of schools receiving e-rate commitments. Between January 1, 1998, and October 1, 2000, 1,015 Mississippi entities had received \$84,356,886.58 in e-rate funding. 695 (68%) of these entities were public schools or public school districts. Public schools, public school districts, private schools, municipalities, state agencies and libraries have received funding commitments.

Mississippi has experienced an increase in funding commitments each year of the program:
