Quote for Bobby Harrison

“We have set high goals for the economic development of Mississippi, and the passage of House Bill 1639 marks a significant and historic step toward reaching those goals. With the signing of this bill, we put the counties one step ahead of the game when it comes to bringing jobs to their areas,” Musgrove said. “It encourages them to work together to improve the quality of life for their people.

“Companies around the nation and the world are looking at us and saying, ‘Why not Mississippi?’” said Musgrove. “This bill strengthens our ability to compete with anyone, anytime, anywhere.”
