

John Moore question – “Would you be proud that you had added 87,000 people to welfare?”

“Medicaid provides vital healthcare services to our Seniors, our Children and the disabled. 80% of our seniors in nursing homes receive assistance from Medicaid. The Children’s Health Insurance Program, which was authorized by Congress, provides health insurance for Children of working families. In the times of a national recession it is more important now than ever that we remain committed to providing these services”

H.B. running for Governor

“Now is not the time for politics. With the country facing a national recession, we are concentrating on bringing new jobs to Mississippi, insuring a quality education for our children, and addressing the health care needs of our state.”
