RE: "Journey to Clarksdale" project

Jef Judin is working on a project called "Journey to Clarksdale." The attached pages provide all the details, but essentially it is a ten-day concert series of the blues. All concerts would take place at Ground Zero in Clarksdale, and Morgan Freeman is one of the executive producers. Jef called and asked me if it would be possible to meet with you for 5-10 minutes to discuss the project and opportunities for your involvement.

Do you want me to set up a meeting with him? Yes No
