

Governor Ronnie Musgrove's quote for the press release to announce the awarding of a grant from the Robert Wood Johnson Foundation to the Jackson Medical Mall Foundation:

The Communities in Charge program is creating new and innovative ways to meet our people's health care needs in the Hinds County area. These efforts to provide essential health services to uninsured Mississippians can become the model for other Mississippi communities and other states. This program will make a positive difference in the lives of thousands of Mississippians.
