

MEMORANDUM

December 10, 2001

TO: Governor

FROM: John

RE: Entergy / Computers in the Classroom press conference

This will take place in the second floor rotunda of the capitol. You will speak first, then introduce Carolyn Shanks. She will make the announcement that the Entergy Charitable Foundation is making a \$200,000 donation to the Computers in the Classroom program. She will have an enlarged version of the check to present to you.

FYI: The Entergy Charitable Foundation was formed in November 2001. ECF funds programs that focus on education, the arts, health and social services. Special emphasis is also placed on initiatives and services that address the needs of low-income populations.

Blake Wilson and Peggy Howard will be there as well.
