

MEMORANDUM

December 4, 2001

TO: Governor

FROM: John

RE: George County meeting with Regional Elected Officials

I spoke with Steve about this meeting. He says there are no issues over and above what is being dealt with in counties across the state. This event should be similar to the one held in Winston County.

I've attached some bullet points, basic economic development points referencing education and Advantage Mississippi – all message material.

WLOX and WDAM are being called by our office to back up any George County media calls.
