Archibald Chang, PhD
465 Oak Avenue
Redwood City, CA 94061

Dear Dr. Chang:

Thank you for the information you forwarded to Governor Musgrove regarding the Program of the Century. School violence is a very important issue today. It is one that deserves careful observation and unlimited time and devotion. You obviously feel the same way as your letter implies this. The program you have introduced here presents several great incentives for students who successfully complete its requirements. They are not only beneficial to the students but for the parents and educators as well. The information you forwarded will be kept on file for future reference as we strive daily to better our school systems across the State of Mississippi.

Again thanks for taking time to share this information with the Governor.

Yours truly,

Kelly L. Riley
Policy Liaison
