Jackson, MS 39204

Dear:

Thank you for forwarding the valuable editorial and articles. I appreciate your support and your persistence to improve education in Mississippi. The statistics you listed are disturbing but they are a reality for the state of Mississippi. Education is a very important issue to the Governor as well as the issue of unemployment. It is encouraging to see that citizens such as your self are willing to share such constructive criticisms about the plight to better each of the abovementioned issues.

Yours truly,

Kelly L. Riley
Policy Liaison
