Subject: PERS: Retired teachers database

I spoke to Frank Ready this morning. He is having his staff create a database of retired teachers from PERS' current database which includes all employees. He said that their statute does not allow them to provide addresses, but suggested we contact Marguerite Lester, Legislative Chairperson for the MS Association of Retired Teachers, at 992-5620. I skimmed the PERS statutes and couldn't find such language, but figured this is Jane's area of expertise.

Ready is also compiling a projection of current teachers eligible to retire within the next 305 years, by year. He will be able to sort these by zip code.

He expects to have the information in a few days and will call me when it is complete.

Frank Ready phoned this morning to say that as of today, 4,091 teachers could retire. I asked him if he had been able to project retirees for the next 3-5 years (as he stated he could in our February 29 meeting) and he said that he would work on this.

As to the names of retired teachers, he again said that they could not provide that information due to privacy issues. I have left a message for Marguerite Lester, Legislative Chairperson for the MS Association of Retired Teachers to see if she had the info.
