SUBJECT: HRSA STATE PLANNING GRANT

DATE: 5/22/00

CC: FILE

The Health Resources and Services Administration (HRSA) is providing \$15 million for 10 states to fund state planning projects for expanding coverage for the uninsured. I recommend that the Division of Medicaid be selected head this grant with a planning team composed of DHS, DFA, and Health.

Linda Southward with MSU's Social Science Research Center attended the initial workshop on this grant. She is willing to assist with the development of the grant application.
