

**Governor's Commission on Physical Fitness and Sports
Worksite Wellness and School Physical Education Awards**

The Worksite Wellness Award is presented to those businesses that promote healthy work environments for their employees. School Physical Education Awards are presented to schools for their physical education curriculum and activities. The extent of the school's physical education curriculum, and thus the points that they earn in scoring, determine their gold, silver or bronze status. Applications are reviewed by a committee comprised of members of the Governor's Commission on Physical Fitness and Sports.
