MEMA has completed their damage assessments and have provided the information to FEMA staff who are on the ground today. Latham notes that the damage assessments do not meet the eligibility criteria for Federal Declaration; however, he asked the FEMA staff to take into account that this year Mississippi has had:

- 3 federal disaster declarations;
- 3 Small Business Administration disaster declarations; and,
- 2 state disaster declarations.

Latham will have a letter for you to sign upon the conclusion of the FEMA staff's review.
