**OFFICE OF GOVERNOR RONNIE MUSGROVE**  
**INTEROFFICE MEMORANDUM**

---

---

**TO:** GOVERNOR  
**FROM:** BOYD  
**SUBJECT:** NORTHWEST FISHERY-BATESVILLE  
**DATE:** OCTOBER 19, 2001  
**CC:** RENICK

---

Ron Garavelli, DWFP's Chief of Fisheries, is seeking assistance with the Industrial Waterline from Panola County. DWFP's proposed fishery needs 500 gallons per minute of water to adequately produce fish under the building's proposed design. The fishery will also include an educational center.

Garavelli notes that the electric generation plan owns 80% of the water line and the Panola Partnership owns 20%. The electric plan has agreed to provide 500 gallons of water to the fishery; however, the partnership has rejected the plan.

Would you like to contact Robert Avant or other parties to move this process along? How do you want to proceed?
