Mark Musick left me voicemail stating that he heard Senator Jay Rockefeller speak yesterday and Sen. Rockefeller mentioned in his speech that he was trying to get in touch with you. According to Mark, Rockefeller said that he was trying to get in touch with several governors, mentioned your name along with other governors', and said he was trying to reach ya'll to discuss the pending Medicaid bill and the issue of dual enrollment. Mark thought you would want to know of Rockefeller's comments and that you might want to try to call him.

Senator Rockefeller's Washington number is 202-224-6472.

Let me know if you need any other information.
