Johnny: I've asked Jeanine to have copies of the agenda and minutes available, so you don't have to worry about copying anything.

My comments on site visits would be mine were good, but I think we need to discuss "probation" for those identified as weak, with such probation including a plan for improvement. Almost all of my visits asked for a showcase institute(s) for exemplary programs to be given as examples for other partners.

I'll be back in office Wednesday, October 4. Could we do conference meeting on Friday? Or, I'm open Thursday afternoon. Suzanne wants meeting to finalize budget and timeline, so maybe we could do that right after the conference meeting.
