SUBJECT: "Following the Leaders" Applications

Enclosed are the 43 applications that I received. Several of the faxes had to be resent either in part or in total, so please do not penalize a school if their application is not in the proper order as I could have attached policies or computer specs at the back of an application rather than in the middle of an application.

I will email you to set up a conference call on either Thursday or Friday to discuss the applications and the potential cohort schools. Thanks!
