
OFFICE OF GOVERNOR RONNIE MUSGROVE
INTEROFFICE MEMORANDUM

TO: WESLEY ELLIS
FROM: FELICIA GAVIN
SUBJECT: COMPUTER REPLACEMENT
DATE: 10/12/2001
CC: JOHN SEWELL, ERICH HOWARD

Let me first say that I understand your frustration with your computer. Unfortunately, funds this year are very limited.

Before the Governor's Office commits to purchasing another computer during this budget year, we need make sure that all other options have been exhausted. Erich has discussed this problem with me, and he mentioned the possibility of damage to the motherboard. However, he has also mentioned additional programs that have been added to the computer.

The office should look at other options first which include reloading the computer again and removing any non-work or non-authorized programs. If this does not resolve the situation, Erich has also mentioned the possibility of dividing the programs on your computer between two computers. He stated that Rosemary's old computer could be used to run office programs and your current computer could run the other programs.

I am committed to ensuring that you have the necessary tools to do your job efficiently. Let's explore these options first before considering expending the required funds for a new computer.
