Section 1 of this bill requires that the Department of Education hire a physical activity coordinator within 60 days after receipt of such funds "subject to the availability of funds specifically for such purpose". Section 2 states the position qualifications and states two job requirements. It also requires the State Department of Education to conduct a study of the correlation between physical activity and classroom performance and report the results to the Legislature. In my opinion, Section 2 is good legislation. I am "luke warm" on this bill given our current fiscal state. I recommend not signing the bill and let it become law.
