Issue: Education High Tech jobs

Street_Address: 19 Difatta Lane

City: Purvis

State: MS

Zip_Code: 39475

Phone: 601-794-5357

Message: Dear SIR:

I am writing today to you about some comments you made to a talk radio station the other day. I would also like to commend you for trying to promote education and technology. I am a system Engineer doing mostly school districts in the southern part of the state. I work closely with technology persons within the district to repair or upgrade hardware. Recently you have made changes to the system that will affect the overall mission you are trying to get to. Example the roads in mississippi are being built all the time with no maintenance to keep them up. The same will happen to technology. You can put computers in the class rooms and do no maintenance or training and they will fail. I see this all the time. I know a couple of districts that have computers that do not know what to do with them. If you want to promote something in the state check out arizona tax credit for high tech companies. You are on the correct path but some changes have to be made in the school systems. I w!

as waiting o
n a opening in my home

Thanks

Mike Hollingsworth CNE
