Hello,

My name is Brent Porter.. I am a web site developer and a while back, seeing they were available to anyone who may have strolled along, I registered the following domain names/web addresses to pre-empt anyone from either camp who may have been thinking the same thing...its an opportunity to ensure that when these names are "parked" they route many many browsers using these keywords to information of the owner's choosing, or wherever. They are:

BushForVictory.com/.net/.org
GoreForVictory.com/.net/.org
GoreForSure.com/.net/.org
GoreIsASnore.com/.net/.org
GoresASnore.com/.net/.org

If they can be of any use in the election, or to the web development team of any organization affiliated with our Party, please let me know. I've done a little research, for what its worth, and Gore's camp doesn't seem to have half the names they probably should, most of the more obvious search keywords that most browsers would type seem to lead to commercial sites rather than their sites...which is a good thing, but it makes the ones that are left available for use more important. I think the above names could be used to great effect by being developed, and used strategically, or simply held so the other camp isn't able to use them to any good effect, which is why I registered them since they were available for anyone who may have wanted them, and could have then routed browsers to ANYTHING, to whatever effect or view. Please let me know if they can be of any help, in whatever small way, towards the cause. Thanks for your time.

Thanks,
Brent Porter
