PRESIDENTIAL CANDIDATES MUST INCLUDE "ANIMALS CRUELTY(especially = FOOD ANIMALS)" IN THEIR ISSUES URGENTLY. We have not found any of the = major presidential candidates including "ANIMAL CRUELTY" in their = issues.=20

We would like to ask you to use your power and influence to urge = all Presidential Candidates and Federal Election Commission to include = "ANIMALS CRUELTY" ISSUE in their agenda.=20

The issue we are concerned most is "Humane Slaughter Act" (HSA). = Congress passed the HSA in 1958 and broadened it in 1978. Among the = HSA's most important provisions is the requirement that all animals be = rendered unconscious with just one application of an EFFECTIVE STUNNING = device by a trained person before being shackled and hoisted up on the = line.=20

However, nearly 80 % of the 6100 slaughterhouses in the U.S. do = not comply with the law. They hang animals upside down in the air with = one leq tied with steel chain and then have their throats slit alive and = then skin animals alive for leather despite their violent kicking , = struggling, .screaming ...... They burn and drown millions of pigs = in 140 degrees water to death. ..... Virtually, they do ANYTHING to = torture and kill animals. All these is to achieve the most cost saving = killing even for a couple of cents. EACH YEAR, just in U.S. alone , = there are 125 millions of cattle, pigs , sheep (which is equivalent to = half of the entire U.S. population), 300 millions of turkeys , and = nearly 9 Billions of chickens are slaughtered for "FOOD". While the = violation of the Federal Meat Inspection Act carries stiff fines and = imprisonment , violations of the HSA carry NO penalties at all ! While = in the celebration of the new MILLENNIUM, we are killing billions of = animals every year more cruel than that in the STONE AGES in the massive = scale. (reference: "SLAUGHTERHOUSE", chapter 1, by Gail Eisnitz, "Animal = Liberation" by Dr. Peter Singer ). Indeed, the United States is the = MOST CRUEL COUNTRY ON EARTH TO BILLIONS OF ANIMALS just to satisfy = American's Meat & Dairy industries ! More importantly, the extreme =

CRUELTY is under the protection of the United States Governement and = it's Congress ! The media also hide all the cruelty from the society ! = Billions of animals every year just in this country alone live in the = hell and die in the most cruel way too.

The next issue we are concerned most is the CRUELTY IN FACTORY = FARMS. The EXTREME CONFINEMENT is the BIGGEST PROBLEM and its = associated HEALTH AND ENVIRONMENTAL CATASTROPHE :=20

Based on the governement figure, every year in the United = States, there are 1.4 millions of Americans died from DIET related = diseases, eg.: Heart Diseases, some Cancers, Strokes and Diabetes due = to high saturated fat, high cholesterol and no fiber ANIMALS SOURCES = FOODS. However, the United States Government continues to push beef, = pork, turkey, chickens, cows milk, eggs to school children and the = society too.

Each year, more than 91 million pigs were slaughtered and more = than 17 billion pounds of pig flesh was produced in the U.S. Animals welfare is completely and totally ignored by the Congress, the = President and the Industries. Once a sow has been impregnated, she is = confined to a "gestation stall," 18 to 24 inches wide and about as long = Unable to move or turn around, she is forced to live on a =as her body. cold, bare cement floor in her own excrement for the entire pregnancy = period 4 months. Then she is moved to a farrowing stall where she will = give birth. The farrowing stall has approximately the similar = litter but range from six to 13. The purpose of the farrowing stall is = to prevent a sow from crushing her offspring. The only reason the = piglets are in such danger is that there is so little space, about 12 = square feet, for a sow and all her litter. (Source: www.meatstinks.com ) = The extreme confinement to the sow have been pushing them to the = psychiatric disorders. The confined sow is often found rubbing her = snout back and forth across the front of the crate or frantically and = repeatedly biting the metal bars..... =20

Every second, 125 tons of waste are produced by animals raised = by the meat industry. The Environmental Protection Agency (EPA) = estimates that almost half of America's surface streams and wells are = contaminated by "agricultural pollutants.".... Every year, about = 125,000 square miles of rain forest (along with 1,000 plant and animal = species) are lost---more than half of it is now used for grazing cattle. = More than half of the total amount of water consummed in the U.S. is = used to irrigate land to grow feed for livestock. To produce a pound of = protein from feedlot beef requires burning 40 times more fossil fuels = than to produce a pound of protein from soybeans. (Source: "Diet for a = New America" ).

Veal factories take newborn male calves from their mothers and = chain them in crates measuring only 22 inches wide and 58 inches long. = This is where they will spend their entire lives. From his first day to = his last, the life of a "milk-fed" veal calf is one of deprivation, = stress, and disease . (Source: www.hfa.org ) Nearly 50% of the all the = antibiotics produced in this country are dumped to animals feed in all = factory farms. According numerous health reports that such massive = amount of antibiotics in animals flesh and by products creates resistant = to antibiotics in human body. The drug is losing its power...=20

The meat and dairy industries deal in "downers" because they can = still sell them for human consumption. Profits, not humane = considerations, guides industry practice and downed animals suffer gross = negligence and abuse at livestock facilities across the country. = Downed animals commonly lay in alleyways, without food, water, or = veterinary care, until it's convenient to take them to slaughter. They = are dragged with chains or pushed with tractors or forklifts---practices = which cause injuries and broken bones are so common. (Source: = http://www.nodowners.org/ )

Intensively-reared chickens are crammed into crowded warehouses = with tens of thousands of other birds. This overcrowding causes = disease, suffocation, and heart attacks. Usually it allows only 0.55 = square feet per bird, which is not enough even to spread one wing. (Even = though USDA recommends 1.5 square feet.) (Source: www.upc-online.org , = www.meatstinks.com ).

As far as wildlife, the LEGHOLD TRAPPING CONTINUES. Steel-jaw = leghold traps are brutally inhumane. These traps are designed to slam = closed on the leg or other body part of an animal. Lacerations, broken = bones, joint dislocations, and gangrene can result. Some animals chew = off their own leg in a desperate attempt to escape. The majority of = smaller animals (rabbits, squirrels, birds, etc.) unintentionally caught = in traps die or must be killed because of serious, disabling injuries. = EIGHTY-EIGHT countries have outlawed steel-jaw leghold traps. Ironically = , the steel jaw leghold traps continue in our National Wildlife Refuges = and supported by U.S. CONGRESS . (Source: www.hsus.org )

The above only listed a few examples of Animals Cruelty topics = in this nation. We hope all media people could stand up and speak out = to your readers, to our Congress and to all Presidential CANDIDATES. = PLEASE URGE THEM TO INCLUDE "ANIMALS CRUELTY" IN THEIR ISSUES AND = AGENDA.=20

In comparison with all other issues, eg.: Anti-Abortion issue, = Health care issue, Social Security, Tax, Environmental issues...... = even protecting the right of an unborn human gene are discussed all day = ... However, billions of animals in excruciating pain and agony in = this country everyday is almost completely NOT ADDRESSED (especially all = FOOD ANIMALS) from any of the media nor from any of the politician. = We actually live in the Atrocity times of the new modern Millennium.=20

We have seen Governor George Bush put "compassionate" word on his = mouth often. However, sources said George Bush's family owns a PORK = CASING COMPANY. Also from some investigative sources said he got THE = MOST CONTRIBUTION from the SLAUGHTERHOUSES, BUTCHERS, FACTORY FARMS, = TEXAS CATTLE RANCHERS..... (sources: http://www.ewg.org and = http://www.crp.org .... etc.). MEAT INDUSTRY STRONGLY SUPPORTS HIM = BEHIND.=20

Every year, in Texas, nearly half MILLION of White Tail Deer are = legally killed in the name of "HARVEST". Texas is one of the BIGGEST = HUNTING STATES in the nation. Some sources said he and his father = are hunters too. We had sent many letters to him before concerning = about massive killing in Texas, HE NEVER RESPONDED EVEN ONCE.

From the history, President Bush had appointed JoAnn Smith as = Assistant Secretary of Agriculture. Ms. JoAnn Smith was a CATTLE = RANCHER, SPOKESWOMAN, POLICY MAKER TO THE MEAT INDUSTRY with strong = support from "AMERICAN MEAT INSTITUTE".(Source: "Slaughterhouse" by Gail = Eisnitz,chapter 21).=20

If Governor George Bush were the President, it could mean the = BIGGEST ATROCITY for billions of animals who had already suffered = unspeakable horror, bloody and cruelty in all stages of the factory = farms, transportation, stockyard, slaughterhouses.... We expect he = would greatly promote EXPORTING "MEAT" TO MANY FOREIGN COUNTRIES, = ESPECIALLY CHINA after he becomes the U.S. President. Millions more = helpless animals will be killed, skinned alive, burned and drowned = alive in numerous slaughterhouses .... USDA could be filled even far = more people from the MEAT & DAIRY INDUSTRIES. Well, with death penalty = Bush had executed over 100, a record in 50 years.

While worrying, we are also very frustrated ! Because there are =

candidates who really care about humans as well as Animals plight, eg. = GREEN PARTY, NATURAL-LAW PARTY. Especially Dr. John Hagelin = (President) and Michael Tompkins(Vice President) are the ONLY candidates = running today for the executive offices who are anywhere NEAR what we = know to be in the longterm best interests of the people, the nation, the = continent, and the planet - and future generations. (Sources: = http://www.hagelin.org/ , http://natural-law.org/ ) However, we did not = see even one minute of their picture or hear any of their voice on all = TV at all ! The media really have the responsibility to BE FAIR to = all candidates with the equal air time and opportunity for EVERY = CANDIDATE . We did not see any of the fairness from the media .=20

Billions of Animals fate is on the hands of every one in our = society. PLEASE, you have so much talent and power, it is THE TIME to = address the ATROCITY and help the most vulnerable nationwide. This = will be one of the Biggest Issues all time for all concerned media , all = environmental groups, all health conscious people and all concerned = citizens as well.=20

We are always very grateful to you for your compassion , = kindness and timely help.

Very Truly Yours,=20

G. Altenbach, S. Smith, L. Thibidore, M. Liu.
