Dear Governor's and Legislator's,
Attached with this e-mail is the "RESPONSE TO MOTION TO DISMISS" which was=20 filed in District Court yesterday, June 7, 2000. The original petition for=20 judicial review was filed on March 1, 2000, but I failed to serve the U. S.=20 Attorney's office in Eugene until May 15, 2000. This was my error as I did=20 not understand all of the responsibilities for my actions. On May 18th, $=20$ 2000, the U. S. Attorney filed a "MEMORADUM OF LAW" and a " MOTION TO=20 DISMISS". =20

I have not scanned these two documents to be able to attached them with=20 e-mails. If anyone in the group would like to get a copy of these documents= , =20
please send your fax number and name to this address and I'll be more than=20 happy to fax the info. $=20$

More likely than not, (like 100\% not) the Court will probably dismiss this=20 request for judicial review. You are all politicians and a majority of you=20 are attorneys and will probably side with the court on this issue. And, $I=20$ also hope you understand why this request was sent to the court=E2=80=A6..On= e of the $=20$
contacts I made researching this proposed amendment is a con law professor; $=20$ he just had a fit to think that I had even considered requesting judicial=20 review because it violated the separation of powers in the federal=20 government. (I got the impression that he wasn't going to be much help in=20 the future!!!

When the Court rules on these motions or when any other information comes to= $=20$
my attention, I will relay the information to you.
Thank you,
Godspeed,
Don Cook
Facilitator 01@AOL.Com
positions on the Social Security Issue. Gore says leave it alone and Bush=20 says let people invest 1 or 2 percent of their money. Both men know that it= $=20$
will take the "Second Coming" for the Congress to act in a positive manner o= $\mathrm{n}=20$
this issue. Both men are right for the wrong reasons, and both men are wron= $\mathrm{g}=20$
for the right reasons. Sections 9 and 14 of the proposed amendment deal wit= $h=20$
the Social Security question. This is a very complex issue while the answer= $=20$
is very simple. If you haven't taken the time to run this past your=20 financial advisor, PLEASE take the time now to do so. If any of the advisor= $\mathrm{s}=20$
tell you this plan will not work, let me know and we can have a meeting of $=20$ the minds. Ultimately, under the Constitution, the State Legislatures will=20 be the only game in town when it come to solving this problem. $=20$
