Ounch of prevention. Something else to think about. What is this world coming to?

Subject: FW: dangerous prank

And we are complaining about the high price of gas!!!

*****DANGEROUS PRANK:*****
Please read and forward to anyone you know who drives.

My name is Captain Abraham Sands of the
Jacksonville, Florida Police
Department. I have been asked by state and

local authorities to
> write this email in order to get the word out to car
> drivers of a very dangerous
> prank that is occurring in numerous states.
>
> Some person or persons have been affixing
> hypodermic needles to the
> underside of gas pump handles. These needles
> appear to be infected
> with HIV positive blood. In the Jacksonville area alone
> there have been
> 17 cases of people being stuck by these needles over the
> past five
> months. We have verified reports of at least 12 others in
> various states
> around the country.
> It is believed that these may be copycat
> incidents due to someone
> reading about the crimes or seeing them reported on
> the television. At this
> point no one has been arrested and catching the
> perpetrator(s) has become
> our top priority.
>
> Shockingly, of the 17 people who where
> stuck, eight have tested HIV
> positive and because of the nature of the
> disease, the others could
> test positive in a couple years.
> Evidently the consumers go to fill their car
> with gas, and when
> picking up the pump handle get stuck with the infected
> needle. IT IS
> IMPERATIVE TO CAREFULLY CHECK THE HANDLE of the gas pump
> each time you use one. LOOK AT EVERY SURFACE YOUR HAND MAY TOUCH,
> INCLUDING UNDER THE HANDLE.
>
> If you do find a needle affixed to one,
> immediately contact your local
> police department so they can collect the
> evidence.
>
> *****PLEASE HELP US BY MAINTAINING A
> VIGILANCE AND BY
> FORWARDING THIS EMAIL TO ANYONE YOU KNOW WHO DRIVES.
> THE MORE PEOPLE WHO KNOW OF THIS THE BETTER PROTECTED
> WE CAN ALL BE. >>
>
