Governor Musgrove and Bob Rohrlack Discuss Issues With Area Development Leaders

Tupelo, MS – Governor Ronnie Musgrove and northeast Mississippi economic development leaders met this morning to discuss issues of interest and visit with Bob Rohrlack, new Executive Director of the Mississippi Development Authority.

“I want every economic development official in the state to know Bob and feel comfortable calling on him,” Musgrove said. “He is ready to work with communities around Mississippi to recruit and retain industry. It is important for the leaders in those communities to be confident in him and know they can contact him for assistance.”

Rohrlack started in his new position on December 3, 2001.
