Governor Musgrove Attends Ribbon-Cutting For Crossroads Energy Center

(Jackson, MS) – Governor Ronnie Musgrove participated in a ribbon-cutting this morning for Crossroads Energy Center, a 320-megawatt, gas-fired power plant located in Clarksdale. The facility is jointly owned by Clarksdale Public Utilities and Aquila, a Kansas City, Missouri, based energy company.

“Facilities like this are vitally important to building the infrastructure of our communities,” Musgrove said. “And, the jobs provided by this plant mean more than just income for the citizens of Clarksdale; they mean food on the table, clothes on the back and a roof over the head.”

The \$130 million facility is located near the intersection of Highway 49 and Highway 61 in Clarksdale.
