

**Quote from Governor Ronnie Musgrove regarding DMR plan for using federal Fisheries Disaster Relief Fund to Stabilize Mississippi Shrimp Industry:**

“The shrimping industry is a vital component in the economy of south Mississippi and the state as a whole. As Governor, I am committed to protecting the jobs created by shrimping and I will ensure this industry continues to receive the support it needs. One hundred percent of the fund is being distributed to the shrimpers, boat captains and businesses involved in the shrimping industry.”
