

AP Smallpox question

Recommended response,

“We are working closely with Dr. Brian Amy, our State Health Officer, to prioritize the vaccines for first responders, such as police officers, emergency personnel, health care providers, and other emergency workers.”

“Or, I am not going to take the vaccine at this time. It is more important that first responders receive the vaccine than politicians.”

ALSO – PEYTON just called, Judge Pittman is swearing in the interim judge for Solomon Osbourne, AA female from the Delta. Judge Pittman wants to know if we want to make a comment in their release.

Thanks.

See you shortly.
