

Governor Ronnie Musgrove

012303

Clarion-Ledger:

I am deeply concerned about the impact of today's announcement on the employees, their families, and the entire community. Southwest Mississippi has been hit hard by the national recession, and the workers at IP are the latest victims. As Governor, I will continue to fight for jobs in the face of this national recession, not only for the 640 workers at IP, but for the whole community and the entire state.
