

Project for Mississippi's Future
Oak Grove Central Elementary
Hernando Mississippi
January 13, 1999

1. Thanks to Bob Pittman -- Great Ambassador for Mississippi throughout the World.
2. Reporters will tell you -- I talked about a *computer on every desk* on the campaign over and over...and over again.
3. Students need to have the computer skills necessary to compete for the good paying jobs of the future.
4. Educated, trained workforce encourages more companies to do business in Mississippi
5. Public Private Partnership -- win win situation for taxpayers, schools AND businesses.
6. Think bigger -- find creative solutions to the challenges facing Mississippians.
